INDEX TO VOLUME 28

A, AB, B, or O? HUBERT M. EVANS and HAROLD TANNENBAUM, 165
Ability of Science Students to Make Conclusions, The. LOUIS TEICHMAN, 268
Abstracts, 56, 178, 293
ADDINALL, C. R. Recent Chemotherapeutic Advances, 10
Aeronautics, The Use of Strip Films in Pre-Induction. R. C. RUNKLE, 54
Aeronautics in Secondary Schools, Humanizing Pre-Flight. JAMES D. TELLER, 95
Agassiz, Louis. JAMES D. TELLER, 252
AGREN, RAYMOND. A Magnetizer, 162
A Hundred Years Ago in Science Education at the Junior High School Level. HEBER ELIOT RUMBLE, 261
AMON, J. CLYDE, JOHN A. HOLLINGER, EDGAR M. HOOPES and CHARLES E. MANWILLER. Physical Science in Senior High Schools, 130
Automobile Parts Useful as Laboratory Equipment. WILLIAM A. KILGORE, 53

BANNING, VIRGINIA E. Year-Round Gardeners, 155
BEAR, FIRMAN E. Science and Economics in Crop Production, 247
BENJAMIN, THEODORE and ISABEL S. GORDON. Your Ally, the English Teacher, 102
BILLIG, FLORENCE G. Science in the Elementary School and the Air Age, 142
Biology, Some Class Activities in. VEVA McATEE, 50
Biology, The Victory Garden and the Study of. W. L. YOUNT, 53
Biology and Human Life. PHILIP P. KOTLAR, 32
Biology Students, Some Evaluation Instruments for. CHARLOTTE L. GRANT and ELSA MARIE MEDER, 106
Birthdays of Chemists, A Calendar of the. JAMES D. TELLER, 43
Body, Studying the Human. DONALD G. DECKER, 34
Book Reviews, 55, 111, 183, 239, 294
Books Received, 298
BRANDWEIN, PAUL F. A Useful Modification of the Test Tube, 164
BRANDWEIN, PAUL F. Some Comments on the Annual Science Talent Search, 47
Bringing Science Teaching Up to Date. ELLIS C. PERSING, 158
BRITT, STEUART HENDERSON, HAROLD A. EDGERTON and HELEN M. DAVIS. Is Your State Discovering Its Science Talent? 228
BURGESS, ANNA E. and NATHAN A. NEAL. Using Radio as a Tool in Science Instruction during the War Period, 150
BURNETT, R. WILL. Conservation: Focus or Incident in Science Education? 82
BURNETT, R. WILL. The International Education Assembly, 167

CALDWELL, OTIS W. How Can Science Education Make Its Greatest Contribution in the Post-War Period? 233
Calendar of the Birthdays of Chemists, A. JAMES D. TELLER, 43
CARLSON, A. J. How Can Science Education Make Its Greatest Contribution in the Post-War Period? 232
Cartridge Thermoswitch, 112
Cells, Putting to Work the Unit on. ZACHARIAH SUBARSKY, 52
Chemistry Class Begins the Year's Work, A. J. G. MANZER, 41
Chemistry Class Visits a Foundry, A. LOUISE G. DREHER, 38
Chemists, A Calendar of the Birthdays of. JAMES D. TELLER, 43
Chemotherapeutic Advances, Recent. C. R. ADDINALL, 10
Comparison of the Outcomes of Instruction of the Conventional High School Physics Course and the Generalized High School Senior Science Course, A. ROBERT H. HEIDEL, 88
Concepts of Energy, Ninth Graders'. ELSA MARIE MEDER, 37
Conclusions, The Ability of Science Students to Make. LOUIS TEICHMAN, 268
Conservation: Focus or Incident in Science Education? R. WILL BURNETT, 82
CRAIG, GERALD S. N.A.R.S.T. (Report of meeting) 169
Crop Production, Science and Economics in. FIRMAN E. BEAR, 247
CROUCH, H. B. The Planning Conference of Science Teachers in Negro Colleges, 167
CROWDER, LOUISE. First and Second Graders Study Foods, 217
CURTIS, FRANCIS D. How Can Science Education Make Its Greatest Contribution in the Post-War Period? 234
CURTIS, FRANCIS D. Testing as a Means of Improving Instruction, 25

Dancing Dolls, The. W. G. WHITMAN, 163
DAVIS, HELEN M., HAROLD A. EDGERTON and STEUART HENDERSON BRITT. Is Your State Discovering Its Science Talent? 228
DAVIS, IRA C. How Can Science Education Make Its Greatest Contribution in the Post-War Period? 237
DECKER, DONALD G. Studying the Human Body, 34
Diseases in New England, Tropical. VLADO A. GETTING, 77
Do Teachers Consider Suggestions for Teaching? RICHARD H. LAMPKIN, 219
DOWNING, ELIOT R. How Can Science Education Make Its Greatest Contribution in the Post-War Period? 285
Downing, Eliot Rowland, Biologist and Educator (Obituary) SAMUEL RALPH POWERS, 289
DREHER, LOUISE G. A Chemistry Class Visits a Foundry, 38

Ecology of Georgia, Human. S. M. NABRIT, 208
Economics in Crop Production, Science and. FIRMAN E. BEAR, 247
EDGERTON, HAROLD A., STEUART HENDERSON BRITT and HELEN M. DAVIS. Is Your State Discovering Its Science Talent? 228
Editorials, 9, 174, 289
Education in Science, The Goal of. SAMUEL RALPH POWERS, 136
Elementary School and the Air Age, Science in. FLORENCE G. BILLIG, 142
Elementary School Science, Oregon Surveys Its Teaching of. CHARLES W. QUAINTANCE, 265
Elementary Science, Improving Reading in. HILDEGARDE M. ROMBERG, 279
Energy, Ninth Graders' Concepts of. ELSA MARIE MEDER, 37
Energy—Come and Get It. C. C. FURNAS, 121
English Teacher, Your Ally the. THEODORE BENJAMIN and ISABEL S. GORDON, 102
Evaluation Instruments for Biology Students, Some. CHARLOTTE L. GRANT and ELSA MARIE MEDER, 106
EVANS, HUBERT M. and HAROLD TANNENBAUM. A, AB, B, or O? 165

Films in Pre-Induction Aeronautics, The Use of Strip. R. C. RUNKLE, 54
First and Second Graders Study Foods. LOUISE CROWDER, 217
Foods, First and Second Graders Study. LOUISE CROWDER, 217
Foundry, A Chemistry Class Visits a. LOUISE G. DREHER, 38
FURNAS, C. C. Energy—Come and Get it, 121

Garden, The Victory, and the Study of Biology. W. L. YOUNT, 53
Gardeners, Year-Round. VIRGINIA E. BANNING, 155
Georgia, Human Ecology of. S. M. NABRIT, 208
GERARD, R. W. How Can Science Education Make Its Greatest Contribution in the Post-War Period? 283
GETTING, VLADO A. Tropical Diseases in New England, 77
Goal of Education in Science, The. SAMUEL RALPH POWERS, 136
GORDON, ISABEL S. and THEODORE BENJAMIN. Your Ally, the English Teacher, 102
GRAHAM, CHARLES C. Visual Instruction in the Teaching of the Secondary Sciences, 25
GRAMET, CHARLES A. Vicarious Visits, 46
GRANT, CHARLOTTE L. Projects in Nutrition Study, 51
GRANT, CHARLOTTE L. and ELSA MARIE MEDER. Some Evaluation Instruments for Biology Students, 106
Great Teachers of Science: II. Louis Agassiz. JAMES D. TELLER, 252

GRUENBERG, BENJAMIN C. How Can Science Education Make Its Greatest Contribution in the Post-War Period? 282

HAVIGHURST, ROBERT J. How Can Science Education Make Its Greatest Contribution in the Post-War Period? 236
HEIDEL, ROBERT H. A Comparison of the Outcomes of Instruction of the Conventional High School Physics Course and the Generalized High School Senior Science Course, 88
HOLLINGER, JOHN A., J. CLYDE AMON, EDGAR M. HOOPES and CHARLES E. MANWILLER. Physical Science in Senior High Schools, 130
HOOPES, EDGAR M., JOHN A. HOLLINGER, J. CLYDE AMON and CHARLES E. MANWILLER. Physical Science in Senior High Schools, 130
How Can Science Education Make Its Greatest Contribution in the Post-War Period? Symposium, 231, 282
HUDSPETH, JACK. How Can Science Education Make Its Greatest Contribution in the Post-War Period? 234
Human Body, Studying the. DONALD G. DECKER, 34
Human Ecology of Georgia. S. M. NABRIT, 208
Human Life, Biology and. PHILIP P. KOTLAR, 32
Humanizing Pre-Flight Aeronautics in Secondary Schools. JAMES D. TELLER, 95
HUNTER, GEORGE W. Six Hundred Teachers Look at Science Trends, 15
HURD, ARCHER W. How Can Science Education Make Its Greatest Contribution in the Post-War Period? 238

Improving Instruction, Testing as a Means of. FRANCIS D. CURTIS, 29
Improving Reading in Elementary Science. HILDEGARDE M. ROMBERG, 279
International Education Assembly, The. R. WILL BURNETT, 167
Introducing the Contributors, 7, 64, 119, 198, 246
Is Your State Discovering Its Science Talent? HAROLD A. EDGERTON. STEUART HENDERSON BRITT and HELEN M. DAVIS, 228

JEAN, FRANK C. How Can Science Education Make Its Greatest Contribution in the Post-War Period? 283
JOHNSON, PALMER O. How Can Science Education Make Its Greatest Contribution in the Post-War Period? 231
Junior High School Level, A Hundred Years Ago in Science Education at the. HEBER ELIOT RUMBLE, 261
Junior High School Level, The Origin of Science Education at the. HEBER ELIOT RUMBLE, 90

KAEMPFFERT, WALDEMAR. Science, War, and Democracy, 199
KILGORE, WILLIAM A. Automobile Parts Useful as Laboratory Equipment, 53
KOTLAR, PHILIP P. Biology and Human Life, 32

Laboratory Directions by Means of Motion Pictures. ZACHARIAH SUBARSKY, 52
Laboratory Equipment, Automobile Parts Useful as. WILLIAM A. KILGORE, 53

LAMPKIN, RICHARD H. Do Teachers Consider Suggestions for Teaching? 219

Magnetizer, A. RAYMOND AGREN, 162
MANWILLER, CHARLES E., JOHN A. HOLLINGER, J. CLYDE AMON, and EDGAR M. HOOPES. Physical Science in Senior High Schools, 130
MANZER, J. G. Simple, Isn't It? A Chemistry Class Begins the Year's Work, 41
MCATEE, VEVA. Some Class Activities in Biology, 50
MEDER, ELSA MARIE. Ninth Graders' Concepts of Energy, 37
MEDER, ELSA MARIE, and CHARLOTTE L. GRANT. Some Evaluation Instruments for Biology Students, 106
Meeting a War-Time Emergency. JOE YOUNG WEST, 223
Motion Pictures, Laboratory Directions by Means of. ZACHARIAH SUBARSKY, 52

N.A.R.S.T. (Report of meeting). GERALD S. CRAIG, 169
NA.R.S.T, New York Conference of (Announcement), 36
N.C.E.S. (Report of meeting). LOIS MEIER SHOEMAKER, 173
NABRIT, S. M. Human Ecology of Georgia, 208
NEAL, NATHAN A., and ANNA E. BURGESS. Using Radio as a Tool in Science Instruction during the War Period, 150
Negro Colleges, The Planning Conference of Science Teachers in. H. B. CROUCH, 167
New England, Tropical Diseases in. VLADO A. GETTING, 77
New York Conference of N.A.R.S.T., The (Announcement), 36
Ninth Graders' Concepts of Energy. ELSA MARIE MEDER, 37
NOLL, VICTOR E. How Can Science Education Make Its Greatest Contribution in the Post-War Period? 287
Nutrition Study, Projects in. CHARLOTTE L. GRANT, 51

Obituary: Eliot Rowland Downing, Biologist and Educator. SAMUEL RALPH POWERS, 289
Oregon Surveys Its Teaching of Elementary School Science. CHARLES W. QUAINTANCE, 265
Origin of Science Education at the Junior High School Level, The. HEBER ELIOT RUMBLE, 90
Outcomes of Instruction of the Conventional High School Physics Course and the Generalized High School Senior Science Course. ROBERT H. HEIDEL, 88

PALMER, E. LAURENCE. How Can Science Education Make Its Greatest Contribution in the Post-War Period? 235
PERSING, ELLIS C. Bringing Science Teaching Up to Date, 158
Physical Science in Senior High Schools. JOHN A. HOLLINGER, J. CLYDE AMON, EDGAR M. HOOPES and CHARLES E. MANWILLER, 130
Physics Course, the Conventional High School, and the Generalized High School Senior Science Course, A Comparison of the Outcomes of Instruction of. ROBERT H. HEIDEL, 88
Planning Conference of Science Teachers in Negro Colleges. H. B. CROUCH, 167
POWERS, SAMUEL RALPH. How Can Science Education Make Its Greatest Contribution in the Post-War Period? 287
POWERS, SAMUEL RALPH. Eliot Rowland Downing, Biologist and Educator, 289
POWERS, SAMUEL RALPH. The Goal of Education in Science, 136
Pre-Flight Aeronautics in Secondary Schools, Humanizing. JAMES D. TELLER, 95
Pre-Induction Aeronautics, The Use of Strip Films in. R. C. RUNKLE, 54
PRESTON, CARLETON E. How Can Science Education Make Its Greatest Contribution in the Post-War Period? 286
Projects in Nutrition Study. CHARLOTTE L. GRANT, 51
PUNKE, HAROLD H. Self and Science, 160
Putting the Unit on Cells to Work. ZACHARIAH SUBARSKY, 52

QUAINTANCE, CHARLES W. Oregon Surveys Its Teaching of Elementary School Science, 265

Race, Thinking about. S. L. WASHBURN, 65
Radio as a Tool in Science Instruction during the War Period, Using. ANNA E. BURGESS and NATHAN A. NEAL, 150
Reading in Elementary Science, Improving. HILDEGARDE M. ROMBERG, 279
Recent Chemotherapeutic Advances. C. R. ADDINALL, 10
ROMBERG, HILDEGARDE M. Improving Reading in Elementary Science, 279
RUMBLE, HEBER ELIOT. A Hundred Years Ago in Science Education at the Junior High School Level, 261
RUMBLE, HEBER ELIOT. The Origin of Science Education at the Junior High School Level, 90
RUNKLE, R. C. The Use of Strip Films in Pre-Induction Aeronautics, 54

Science and Economics in Crop Production. FIRMAN E. BEAR, 247
Science Education, Suggestions to Those Submitting Manuscripts to, 192
Science Education: What Shall It Be? 174
Science in the Elementary School and the Air Age. FLORENCE G. BILLIG, 142
Science Talent, Is Your State Discovering Its. HAROLD A. EDGERTON, STEUART HENDERSON BRITT and HELEN M. DAVIS, 228
Science Talent Search, Some Comments on the Annual. PAUL F. BRANDWEIN, 47
Science Teaching, Bringing Up to Date. ELLIS C. PERSING, 158.
Science Trends, Six Hundred Teachers Look at. GEORGE W. HUNTER, 15
Science, War, and Democracy. WALDEMAR KAEMPFFERT, 199

SEARS, PAUL B. How Can Science Education Make Its Greatest Contribution in the Post-War Period? 232
Self and Science. HAROLD H. PUNKE, 160
Senior Science Course, the Generalized High School, and the Conventional High School Physics Course, A Comparison of the Outcomes of Instruction of. ROBERT H. HEIDEL, 88
SHOEMAKER, LOIS MEIER. N.C.E.S. (Report of meeting), 173
Simple, Isn't It? A Chemistry Class Begins the Year's Work. J. G. MANZER, 41
Six Hundred Teachers Look at Science Trends. GEORGE W. HUNTER, 15
Some Class Activities in Biology. VEVA MCATEE, 50
Some Comments on the Annual Science Talent Search. PAUL F. BRANDWEIN, 47
Some Evaluation Instruments for Biology Students. CHARLOTTE L. GRANT and ELSA MARIE MEDER, 106
Still a Teacher of Science. LOUISE STOLLBERG, 146
STOLLBERG, LOUISE. Still a Teacher of Science, 146
Strip Films in Pre-Induction Aeronautics, The Use of. R. C. RUNKLE, 54
Studying the Human Body. DONALD G. DECKER, 34
SUBARSKY, ZACHARIAH. Laboratory Directions by Means of Motion Pictures, 52
SUBARSKY, ZACHARIAH. Putting the Unit on Cells to Work, 52
Suggestions for Teaching, Do Teachers Consider. RICHARD H. LAMPKIN, 219
Suggestions to Those Submitting Manuscripts to *Science Education*, 192
Summer Session Announcements, 177
Symposium—How Can Science Education Make Its Greatest Contribution in the Post-War Period? 231, 282

TANNENBAUM, HAROLD, and HUBERT M. EVANS. A, AB, B, or O? 165
Teacher of Science, Still a. LOUISE STOLLBERG, 146
Teachers Consider Suggestions for Teaching, Do. RICHARD H. LAMPKIN, 219
Teachers in Negro Colleges, The Planning Conference of Science. H. B. CROUCH, 167
Teachers Look at Science Trends, Six Hundred. GEORGE W. HUNTER, 15
Teachers of Science, Great. JAMES D. TELLER, 252
Teaching of the Secondary Sciences, Visual Instruction in. CHARLES C. GRAHAM, 25
TEICHMAN, LOUIS. The Ability of Science Students to Make Conclusions, 268
